

Fellowship Programme 2018 Call for Applications

Public Information Sessions

Interested applicants are highly encouraged to attend

17 March 2017, Fri | 12:30 – 14:00 PM

5 April 2017, Wed | 12:30 – 14:00 PM

13 April 2017, Thu | 18:30 – 20:00 PM

About the Programme

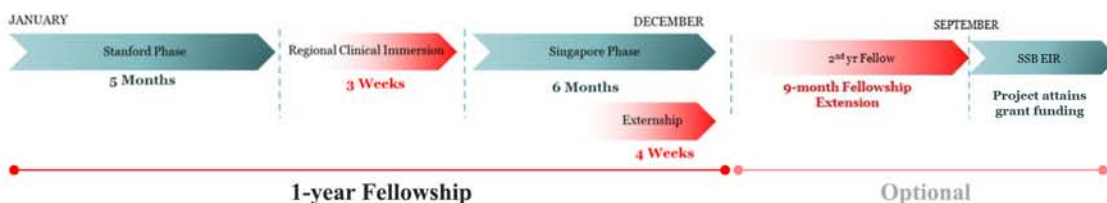

The SSB Fellowship is an intensive 1-year hands-on team-based training scholarship on the entire value chain of medical technology innovation, with access to training and mentorship in Stanford University and Singapore. During the Fellowship, the Fellows are trained in Stanford University for the first 5 months followed by clinical immersion and project implementation for another 6 months in Singapore. Clinical immersion also includes a 3-week regional immersion in hospitals outside Singapore (typically in Indonesia or Korea). At the end of the Fellowship, Fellows take part in an industry attachment to work on a corporate innovation project.
